

Johnie Ci

Cybersecurity Analyst

Profile

As a Cybersecurity Analyst with over two years of experience, I have developed a comprehensive understanding of security risks, protocols, and processes. I am experienced in analyzing system logs, identifying vulnerabilities, and developing strategies to mitigate or eliminate risks. I have collaborated with various stakeholders to develop security policies, procedures, and controls to ensure the protection of confidential data. Additionally, I have experience in network security, system security, and malware analysis. My experience has enabled me to effectively identify, investigate, and respond to cyber threats.

Employment History

Cybersecurity Analyst at FireEye, VA

Oct 2022 - Present

- Developed an incident response plan that reduced the average time to respond and remediate security incidents from 48 hours down to 24, resulting in a 50% reduction of potential risk exposure for FireEye's clients.
- Identified over 200 cyber threats targeting corporate networks across 40 countries using advanced analytics techniques, allowing FireEye to mitigate these risks before any damage was done.
- Implemented endpoint detection & response (EDR) tools which enabled proactive threat hunting capabilities within the enterprise network environment; successfully detected 5 zero-day exploits and prevented them from being used against internal systems or customers' data.

Cybersecurity Associate Analyst at Raytheon Technologies, VA

Sep 2021 - Sep 2022

- Developed and implemented an automated security system that reduced the time needed to detect malicious activity by 75%, resulting in a \$50,000 cost savings for Raytheon Technologies.
- Led a team of 3 cybersecurity analysts in identifying over 500 potential threats within the network infrastructure and successfully remediated all identified weaknesses before any damage could occur.
- Achieved 100% compliance with government regulations on data protection standards through rigorous testing protocols which enabled Raytheon Technologies VA division to pass their annual audit without issue or penalty.

Certificates

Certified Information Systems Security Professional (CISSP)

Dec 2021

Certified Ethical Hacker (CEH)

Jul 2020
