Summary

Highly skilled and experienced Flight Dispatcher with 8+ years of experience in the aviation industry, possessing a strong background in flight planning, crew management, and regulatory compliance. Proven track record of ensuring safe and efficient flight operations, with a strong focus on customer satisfaction and team collaboration.

Experience

Flight Dispatcher

American Airlines • Dallas, TX • Jan 2018 - Present

Dispatched flights for a fleet of 200+ aircraft, ensuring compliance with FAA regulations and company policies. Collaborated with pilots, air traffic control, and other stakeholders to optimize flight routes, altitudes, and speeds. Utilized expertise in weather forecasting, air traffic management, and aircraft performance to minimize delays and cancellations. Implemented process improvements, resulting in a 25% reduction in flight delays and a 15% increase in on-time arrivals.

- Dispatched an average of 50 flights per day, with a 99.9% on-time departure rate
- Conducted pre-flight briefings with pilots, providing critical weather, air traffic, and aircraft information
- Coordinated with air traffic control to obtain optimal flight routes and altitudes, resulting in a 10% reduction in fuel consumption

Assistant Flight Dispatcher

Delta Air Lines • Atlanta, GA • Jun 2015 - Dec 2017

Assisted in the dispatch of flights, ensuring compliance with FAA regulations and company policies. Developed and maintained knowledge of aircraft performance, weather forecasting, and air traffic management. Collaborated with pilots, air traffic control, and other stakeholders to optimize flight routes, altitudes, and speeds. Participated in the development and implementation of process improvements, resulting in a 12% reduction in flight delays and a 10% increase in on-time arrivals.

- Assisted in the dispatch of an average of 30 flights per day, with a 99.5% on-time departure rate
- Conducted pre-flight briefings with pilots, providing critical weather, air traffic, and aircraft information
- Coordinated with air traffic control to obtain optimal flight routes and altitudes, resulting in a 5% reduction in fuel consumption

Education

Bachelor of Science in Aeronautical Science

Embry-Riddle Aeronautical University • Daytona Beach, FL • Aug 2010 - May 2014

Aeronautical Science • GPA: 3.5/4.0
